

## Assembly Bill No. 2112

### CHAPTER 89

An act to amend Section 4590 of the Public Resources Code, relating to forestry.

[Approved by Governor July 7, 2014. Filed with Secretary  
of State July 7, 2014.]

#### LEGISLATIVE COUNSEL'S DIGEST

AB 2112, Dahle. Forestry: timber operations.

The Z'Berg-Nejedly Forest Practice Act of 1973 prohibits a person from conducting timber operations, as defined, unless a timber harvesting plan prepared by a registered professional forester has been submitted to, and is approved by, the Department of Forestry and Fire Protection. Existing law requires a timber harvesting plan approved on or after July 1, 2012, to be effective for a period of not more than 5 years, unless extended as provided. Existing law requires the notice of extension to be provided to the department not sooner than 30 days, but at least 10 days, prior to the expiration of the plan.

This bill would instead require the notice of extension to be provided to the department not sooner than 140 days, but at least 10 days, prior to the expiration of the plan and would make a conforming change.

*The people of the State of California do enact as follows:*

SECTION 1. Section 4590 of the Public Resources Code is amended to read:

4590. (a) (1) A timber harvesting plan approved on or after July 1, 2012, is effective for a period of not more than five years, unless extended pursuant to paragraph (2).

(2) A timber harvesting plan, on which timber operations have commenced but not been completed, may be extended by amendment for a two-year period in order to complete the timber operations, if both of the following occur:

(A) Good cause is shown.

(B) All timber operations are in conformance with the plan, this chapter, and all applicable rules and regulations, upon the filing of the notice of extension as required by this section.

(b) The extension shall apply to any area covered by the plan for which a report has not been submitted under Section 4585. The notice of extension shall be provided to the department not sooner than 140 days, but at least 10 days, prior to the expiration date of the plan. The notice shall include

the circumstances that prevented a timely completion of the timber operations under the plan and, consistent with Section 4583, an agreement to comply with this chapter and the rules and regulations of the board as these exist on the date the extension notice is filed.

(c) Stocking work may continue for more than the effective period of the plan under subdivision (a), but shall be completed within five years after the conclusion of other work.

(d) A timber harvesting plan that is approved on or after January 1, 2010, to August 31, 2012, inclusive, may be extended by amendment for a two-year period in order to complete the timber operations, up to a maximum of two 2-year extensions, if the plan complies with subparagraphs (A) and (B) of paragraph (2) of subdivision (a) and the notice of extension, pursuant to subdivision (b), includes written certification by a registered professional forester that neither of the conditions in subdivision (e) has occurred.

(e) The department shall not approve an extension pursuant to subdivision (a) or (d) if either of the following has occurred:

(1) Listed species, as defined in Article 1 (commencing with Section 2050) of Chapter 1.5 of Division 3 of the Fish and Game Code or the federal Endangered Species Act (16 U.S.C. Sec. 1531 et seq.), have been discovered in the logging area of the plan since approval of the timber harvesting plan.

(2) Significant physical changes to the harvest area or adjacent areas have occurred since the timber harvesting plan's cumulative impacts were originally assessed.

(f) An extension of a timber harvesting plan on which either of the conditions in subdivision (e) has occurred may be obtained only pursuant to Section 1039 of Title 14 of the California Code of Regulations.
